# Contents

The Author .....	pag. 7
Aknowledgements .....	pag. 7
Foreworded by Madeleine Lejour .....	pag. 9
Preface .....	pag. 11
Introduction .....	pag. 13
<b>CHAPTER 1 - RECONSTRUCTION AFTER MASTECTOMY: FINAL GOALS .....</b>	<b>pag. 19</b>
The six final goals .....	pag. 21
The qualitative levels of the final target.....	pag. 23
<b>CHAPTER 2 - THE APPROACH TO THE POST-MASTECTOMY PATIENT: THE FIRST CONSULTATION .</b>	<b>pag. 29</b>
Interview.....	pag. 31
Assessment of the psychological category.....	pag. 35
Examination of the mastectomy site .....	pag. 38
General physical examination .....	pag. 41
<b>CHAPTER 3 - THE APPROACH TO THE PATIENT: THE SELECTION OF THE RECONSTRUCTIVE     PROCEDURE .....</b>	<b>pag. 45</b>
Charts for the selection of the reconstructive procedure.....	pag. 47
Pick up your case... and find the solution according to the chart.....	pag. 49
<b>CHAPTER 4 - ABDOMINAL FLAP RECONSTRUCTION: PREOPERATIVE PLANNING .....</b>	<b>pag. 57</b>
Preoperative drawing .....	pag. 59
Pre-existing abdominal scars influencing flap planning .....	pag. 68
<b>CHAPTER 5 - SURGICAL PROCEDURES FOR ABDOMINAL FLAP TRANSFER .....</b>	<b>pag. 75</b>
Pedicled flap transfer.....	pag. 77
Free flap transfer .....	pag. 94
The recharged and the parasite flaps .....	pag. 97
<b>CHAPTER 6 - COMPLICATIONS AFTER ABDOMINAL FLAP TRANSFER .....</b>	<b>pag. 101</b>
Flap complications .....	pag. 103
Abdominal complications .....	pag. 109
<b>CHAPTER 7 - SECONDARY STAGES AFTER ABDOMINAL FLAP TRANSFER .....</b>	<b>pag. 117</b>
Volume reduction at the axillary tail .....	pag. 119
Volume reduction in the upper inner quadrant .....	pag. 120
Definition of the inframammary fold .....	pag. 121
Upward shifting of the inframammary fold .....	pag. 122
Overall volume reduction.....	pag. 124
Creation of an upper cleavage.....	pag. 127
Reconstruction of the axillary fold.....	pag. 129
Reconstruction of the nipple and areola.....	pag. 132

<b>CHAPTER 8 - SECONDARY RECONSTRUCTIONS USING THE ABDOMINAL FLAP</b> .....	pa	9
<b>CHAPTER 9 - BILATERAL RECONSTRUCTIONS USING THE ABDOMINAL FLAP</b> .....		17
Reconstruction after bilateral mastectomy .....		49
Reconstruction after bilateral prophylactic mastectomy .....		52
<b>CHAPTER 10 - RESULTS AFTER ABDOMINAL FLAP TRANSFER</b> .....	pag.	157
Results in patients with different body structures .....	pag.	159
Unfavourable results after incorrect planning .....	pag.	165
Long term results .....	pag.	173
<b>CHAPTER 11 - RECONSTRUCTION USING IMPLANTS</b> .....	pag.	179
The candidate for reconstruction using implants .....	pag.	181
Operative procedure .....	pag.	182
The first operative stage .....	pag.	182
The post-operative period .....	pag.	186
The second operative stage .....	pag.	187
The post-operative period and the final operative stages .....	pag.	193
<b>CHAPTER 12 - RECONSTRUCTION USING IMPLANTS: ASSOCIATED PROCEDURES</b> .....	pag.	201
Flaps and implants .....	pag.	203
Lipofilling and implants .....	pag.	206
<b>CHAPTER 13 - COMPLICATIONS AND UNTOWARD RESULTS AFTER RECONSTRUCTION USING IMPLANTS</b> .....	pag.	213
Early complications .....	pag.	215
Late complications and secondary reconstructions .....	pag.	218
Unfavourable long-term results after reconstruction using implants .....	pag.	228
<b>CHAPTER 14 - BREAST RECONSTRUCTION AFTER CONSERVATIVE CANCER SURGERY</b> .....	pag.	231
Classification of the deformities .....	pag.	233
Techniques for surgical correction .....	pag.	235
<b>CHAPTER 15 - RECONSTRUCTION OF CHEST-WALL DEFECTS AFTER RADIATION THERAPY</b> .....	pag.	249
Reconstruction of superficial defects .....	pag.	251
Reconstruction of deep defects involving up to two ribs .....	pag.	256
Reconstruction of deep defects involving more than two ribs .....	pag.	258
<b>CHAPTER 16 - BREAST REDUCTION AND RESHAPING: GENERAL CONCEPTS</b> .....	pag.	261
<b>CHAPTER 17 - BREAST RESHAPING AND MINOR REDUCTION IN PTOTIC BREASTS</b> .....	pag.	267
The candidate .....	pag.	269
Preoperative marking .....	pag.	271
Surgical technique .....	pag.	272

Postoperative care.....	pag. 276
Long-term results .....	pag. 281
<b>CHAPTER 18 - REDUCTION IN MEDIUM TO LARGE SIZE HYPERTROPHIES.....</b>	<b>pag. 285</b>
The origins of the technique.....	pag. 287
Preoperative marking .....	pag. 291
Surgical technique .....	pag. 294
Postoperative care.....	pag. 300
Untoward results.....	pag. 302
Long-term results .....	pag. 305
<b>CHAPTER 19 - REDUCTION IN EXTREME HYPERTROPHIES .....</b>	<b>pag. 309</b>
The vertical technique in extreme hypertrophies .....	pag. 311
When using traditional procedures?.....	pag. 316
<b>CHAPTER 20 - CONTRALATERAL REDUCTION OR RESHAPING IN PATIENTS WITH BREAST RECONSTRUCTION .....</b>	<b>pag. 321</b>
<b>CHAPTER 21 - ERRORS IN BREAST REDUCTIONS .....</b>	<b>pag. 327</b>
A selection of cases seen for medico-legal expertise .....	pag. 329
<b>CHAPTER 22 - BREAST AUGMENTATION .....</b>	<b>pag. 333</b>
The candidate for breast augmentation and the selection of the technique.....	pag. 335
Implants.....	pag. 337
Incisions.....	pag. 338
Axillary incision.....	pag. 338
Submammary incision.....	pag. 338
Periareolar incision.....	pag. 339
Implant location.....	pag. 340
Premuscular implant placement .....	pag. 341
Submuscular implant placement .....	pag. 347
Dual plane implant placement.....	pag. 342
<b>CHAPTER 23 - SURGICAL PROCEDURES FOR BREAST AUGMENTATION.....</b>	<b>pag. 345</b>
Periareolar subglandular augmentation .....	pag. 346
Transaxillary submuscular augmentation.....	pag. 347
Periareolar dual plane augmentation .....	pag. 355
Mastopexy and augmentation.....	pag. 361
<b>CHAPTER 24 - SPECIAL PROBLEMS IN BREAST AUGMENTATION .....</b>	<b>pag. 369</b>
Laterally located NACs.....	pag. 371
Asymmetrical NAC position .....	pag. 374
Pectus carenatum.....	pag. 375
Pectus excavatum .....	pag. 376
Invaginated nipples.....	pag. 378
Tubular breasts .....	pag. 380

<b>CHAPTER 25 - ERRORS IN BREAST AUGMENTATION .....</b>	<b>385</b>
Wrong pocket dissection .....	387
Incorrect implant selection .....	388
Erroneous selection of the implant location .....	388
Wrong management of the pre-existing breast .....	389
<b>CHAPTER 26 - SECONDARY BREAST AUGMENTATION .....</b>	<b>pag. 391</b>
Capsular contracture .....	pag. 393
Implant rupture .....	pag. 399
Implant exposure .....	pag. 401
The ptotic augmented breast .....	pag. 403
Rippling .....	pag. 404
<b>CHAPTER 27 - BREAST ASYMMETRIES .....</b>	<b>pag. 407</b>
Asymmetries of position .....	pag. 410
Asymmetries of shape .....	pag. 413
Asymmetries of volume .....	pag. 417
<b>CHAPTER 28 - POLAND SYNDROME .....</b>	<b>pag. 423</b>
Poland syndrome correction in females .....	pag. 426
Latissimus dorsi muscle transposition and implant .....	pag. 426
Abdominal flap transfer .....	pag. 431
Poland syndrome correction in males .....	pag. 434
<b>INDEX .....</b>	<b>pag. 437</b>
